

# Community Animal Response Team (CART) Training

*How will you deal with injured Animals after Disaster strikes?  
How many Lost pets will you see?*

## ARE YOU PREPARED?

**Noah's Wish**, a nationally acclaimed animal welfare organization dedicated to rescuing and sheltering animals in disasters, is offering a brand new one-day Community Animal Response Team (CART) training class in Hermon. In this class responders will learn critical life-saving skills in the following animal-related areas:

- **Pet First Aid**
- **Animal Search & Rescue**
- **Animal Sheltering**

**REGISTER NOW AT [LASURVIVAL.ORG](http://LASURVIVAL.ORG)!**

*This class has been specially adapted to cover all of the 2 CERT Animal Modules PLUS a whole lot more.* You will receive a certificate from Noah's Wish upon completion of the course as well as a patch. This program is being evaluated as a trial program with the LAFD CERT Unit. If approved, the patch will then be used as an identifier of those who completed the course. Noah's Wish instructors will include our very own Cindy Sanchez, a CERT Level III responder and ARC instructor -- as well as other animal rescue experts from across the US! Their 2-day program costs over \$100. This subsidized pilot program will be a fraction of that cost thanks to generous donations from our supporters.

**COST: \$20 PER PERSON (THIS CLASS ONLY).**

**PREREQUISITE: CERT Level 1 (LAFD 17.5 hr class or equiv)**

## Saturday, Oct 1, 2011 7:00am-5:30pm

**Hermon Church Fellowship Ctr  
5800 Monterey Road, LA 90042**

**Disaster Survival Task Force**

*Pre-registration at [LASurvival.org](http://LASurvival.org) is required*
